

# Find the right Wi-Fi for your home.

Nest Wifi Pro

Google Wifi

Wi-Fi standard	Wi-Fi 6E	Wi-Fi 5
Bands	Tri-band (2.4 GHz / 5 GHz / 6 GHz)	Dual-band (2.4 and 5 GHz)
Combined speeds	Up to 4.2 Gbps <sup>1</sup>	Up to 1.2 Gbps <sup>1</sup>
Wi-Fi connectivity	AXE4200	AC1200
Coverage	Up to 120 square metres per router <sup>2</sup>	Up to 85 square metres per point <sup>2</sup>
Ethernet ports	Two per router	Two per point
Self-monitoring and diagnostics	✓	✓
Checks speeds for optimal performance	✓	✓
Automatic security updates for protection	✓	✓
Compatible with previous generations of Nest Wifi and Google Wifi	—	✓
Thread Border Router built in	✓	—
Matter-enabled	✓	—

<sup>1</sup> Combined speeds are total speeds across all bands and derived from IEEE Standard 802.11 specifications based on the use of Wi-Fi 6 or later-generation connected devices that support 160 MHz channels. Actual speeds depend on your Internet Service Provider, network conditions, connected devices, local regulations and environmental factors. <sup>2</sup> Home size, materials and layout can affect how Wi-Fi signals travel. Larger homes or homes with thicker walls or long, narrow layouts may need extra routers/points for full coverage.
